# Mission

To provide businesses, entrepreneurs and individuals with the highest quality auditing, accounting, consultancy and business advisory services delivered in a timely, efficient and innovative manner by a professional team that clearly enjoys working together (while maintaining independence and integrity) to exceed their clients' needs and expectations.

# Vision

To be the most respected professional firm in the region where clients come for the peace of mind that their interests are being cared for by a team that enjoys working with them and one another.

# Who We Are..

**E**VAS International has been established and is reputed as a professional firm of Auditors, Accountants and Business Consultants. We have a team of Chartered Accountants with an experience of more than 10 years in the business and practice in the United Arab Emirates.

We offers innovative solutions of international and high quality to businesses, on varieties of issues related with management of business, and with comprehensive portfolio including accountancy and auditing services, management consultancy, new business entry and business support services.

Our offices are located in the Emirate of Dubai and Abu Dhabi and we provide services for a wide range of clientele located in the various Emirates of the United Arab Emirates.

# Core strength

**O**ur strength lies in our partners and the employees who have the relevant and expert experience in diversified fields and who are disciplined as a team, therefore, are able to offer a wide range of specialty services to our clients and are well equipped to give full justice to all types of assignments. We believe in delivering 'value added' quality services to our clients. A contingent reserve force arrangement enables us to accept any assignment with the staff strength not being a constraint but, on the contrary, a significant strength.

We provide a partner's continual involvement in each assignment to ensure that client requirements are addressed on a timely and effective basis, and

client relationships are fostered and mutual growth is achieved. Our professional advice can provide an extra edge for the business to succeed in their highly competitive and dynamic environment. Our strength also lies in the personalized service we provide to our clients focusing on the specific individual requirements of the Company considering the size, nature, volume and situation of the business. We are committed to work with honesty and integrity, to respect the confidentiality, to make available necessary professional skill sets and capabilities and to operate within the fair business practices and applicable laws and regulations of the United Arab Emirates.

# Expertise

1. Auditing and Assurance
2. Business Consultancy
3. Bookkeeping and Accounting Services
4. Corporate Services
5. Structured finance consultancy

# Auditing & assurance

**An audit is much more than a routine compliance engaged by the stakeholders. We provide assurance services in the nature of independent and professional opinion on the financial statements of our clients prepared under the International Financial Reporting Standards. The significant features of these services are as under:**

- Our audit files and documentation are maintained in accordance with the International Standards on Auditing and hence can easily meet the standards of the regulators perspective;
- We perform risk assessment as a part of our auditing services which helps businesses to ensure that controls are operating as expected, identify any control weaknesses and rectify the same;
- We also provide advice on the direction of the Company reflected by its financial statements which in turn helps to improve and enhance the operations of the business;
- We keep you updated periodically with the relevant financial reporting and related legislative and technical updates;
- The assignments undertaken by us includes:
  - external audit engagements,
  - review engagements,
  - compilation engagement
  - agreed upon procedures engagements
  - information systems and controls assurance and
  - forensic audit and investigation.

# Business consultancy

This is an area where business look into for value addition, wealth maximization and controls improvement, strategic management decision making and investment making.
