## 1. Brief overview of this user guide

This guide will help you navigate the e-Services portal from a systems perspective, and is designed to be read in conjunction with the Excise Tax Clearing Company User Guide | Registration & Amendments. This guide is intended to help you to:

- suspend Excise Tax upon import;
- release suspended Excise Tax for goods that have been exported; and
- declare consumed goods.

This guide will also help you understand

- the icons and symbols used in the forms
- the Excise Tax Suspension compliance obligations that an Excise Tax Clearing Company has to comply with; and
- the various declaration forms that need to be filed by an Excise Tax Clearing Company in the UAE.

The sections of the guide provide a detailed explanation of each type of declaration form and who, how and when the Excise Tax Clearing Company should complete and submit each declaration form to the FTA.

## 2. Excise Tax Suspension Overview

As an Excise Tax Clearing Company, you are required to declare the Excise Goods that you will be importing into the UAE on behalf of the importer. You will be allowed to defer Excise Tax up to the value of the guarantee amount held by the FTA in respect of the guarantee you paid when you registered as an Excise Tax Clearing Company (TINCE) or subsequently amended guarantee amount, where applicable.

You will also be required to, on behalf of the importer, declare the Excise Goods that are consumed in the UAE. You will need to pay the Excise Tax applicable on the consumed quantities.

For easier reference, please find below a high level description of the forms that you will need to complete for Excise Tax suspension activities.

- **EX201A** - Excise Tax Suspension – Import Declaration
- **EX201B** - Excise Tax Suspension – Consumed Goods & Release Declaration

The value of the Excise Goods and the Excise Tax will be pre-populated in the above forms based on a standard price list that is published by the FTA.

The next sections of this User Guide will help you understand the requirements to complete each of these declarations forms.

**Note:** Only products related to the category selected by you during your Excise Tax Clearing Company (TINCE) registration should be added into the various declarations or forms that you submit to the FTA. Therefore, if you would need to report additional types of Excise Goods via the forms, you should first amend your Excise Tax Clearing Company (TINCE) registration and add the new types of Excise Goods before you report them on any of the forms.
